Authority	Framework	Scope	Further Information
Crown Commercial Service - Open to all Public Sector			
Crown Commercial Service	RM3733 Technology Products 2 (TP2)	<p>Lot 1 - Hardware</p> <p>Lot 2 - Software</p> <p>Lot 3 - Combined Hardware and Software</p> <p>Lot 4 - Information Assured Products</p> <p>Lot 5 - Volume Hardware (Direct from OEM)</p> <p>Lot 6 – Catalogue</p>	<p>Lot 1 - Provision of a wide range of vendor-neutral hardware including end-user computing and infrastructure. Hardware solutions can also be procured. Scope includes:</p> <ul style="list-style-type: none"> One Stop Shop Value-add Related Services Financed Purchase Agreement <p>Lot 2 - Full range of commercial and open source commodity off-the-shelf software, software licenses and associated commoditised software services including software asset management.</p> <p>Scope includes:</p> <ul style="list-style-type: none"> One Stop Shop Implementation services Value-added services
		<p>SCC is appointed to all eligible Lots (Lots 1-4, 6)</p> <p>DIRECT AWARD (LOT 6)</p> <p>FURTHER COMPETITION</p>	<p>Lot 3 - Any combination of the Goods and Services provided under Lots 1 and 2 may be provided under this</p> <p>Lot 4 - Commoditised IT products and solutions capable of meeting specific protective, information assurance requirements.</p> <p>Scope includes:</p> <ul style="list-style-type: none"> Hardware related solutions Software licenses and implementation solutions Provision of data integrity testing solutions, including penetration testing, security audits, IT health checks Audio-visual solutions Secure disposals Access to Communications Electronics Security Group (CESG) approved products and services. <p>Lot 6 - Range of commoditised technology hardware and software products via an online catalogue</p>

Crown Commercial Service	RM6068 – Technology Products & Associated Services (TePaS)	Technology Products and Associated Services (TePaS) offers public sector customers a flexible and compliant way to source all of their technology product and “close to box” service needs, from a single laptop to an entire corporate infrastructure.	<p>Lot 1 - Hardware & Software & Associated Services</p> <p>Lot 2 - Hardware and Associated Services</p> <p>Lot 3 - Software and Associated Services</p> <p>Lot 4 - Information Assured Products & Associated Services</p>
		FURTHER COMPETITION	
Crown Commercial Service	RM 3804 - Technology Services 2	Technology Products 2 (TP2) offers public sector customers a flexible and compliant way to source all of their technology product needs, from a single cable to an entire corporate infrastructure.	<p>Lot 1 - Technology Strategy and Solutions Design</p> <p>Lot 2 - Transition and Transformation</p> <p>Lot 3 - Operational Services</p> <p style="padding-left: 20px;">Lot 3a – End User Services</p> <p style="padding-left: 20px;">Lot 3b – Operational Management</p> <p style="padding-left: 20px;">Lot 3c – Technical Management</p> <p>Lot 3d – Application and Data Management</p> <p>Lot 4 – Programmes and Large Projects</p> <p style="padding-left: 20px;">Lot 4a – Official</p> <p>Lot 4b – Above Official</p>
		FURTHER COMPETITION	
Crown Commercial Service	RM3808 - Network Services 2	Traditional and IP based audio-visual conferencing services. Includes consultancy and training services, software management tools, call recording, analysis tools, peripheral equipment, transcribing and translation services.	<p>Lot 8 - Provision of video-conferencing services including but not limited to all traditional and IP based conferencing services and the provision of all elements of a complete solution (excluding connectivity). The Lot scope includes, but is not limited to:</p> <ul style="list-style-type: none"> • Related consultancy and training services to optimise performance or otherwise improve operations. • Related software management tools (including performance enhancing software and software based clients to extend reach and inter-operability of the services) • Call recording and quality/usage analysis tools <p>Provision of related ancillary video conferencing services and/or peripheral equipment, including test and analysis tools, security access products, collaboration tools, call</p>

		DIRECT AWARD	recording and playback, and transcribing/translation services.
		FURTHER COMPETITION	
Crown Commercial Service	RM1577.11 - G-Cloud 11	Digital Marketplace based Cloud computing services covering hosting, software and cloud support on a commodity based, pay-as-you go service.	All Lots and extensive range of solutions and services entries on all open G-Cloud iterations including latest G-Cloud-11
		<p>Lot 1 – Cloud Hosting</p> <p>Lot 2 – Cloud Software</p> <p>Lot 3 – Cloud Support</p>	<ul style="list-style-type: none"> • SCC has many entries in each Lot • Check with SCC Account Manager or search Government Digital Marketplace
		DIRECT AWARD	
Crown Commercial Service	RM3781 - Multifunctional Devices, Managed Print and Content Services and Records and Information	Provision of MFDs ranging from entry level, standalone to fully networked print room equipment, along with the required software options to support organisations with page output, document workflow and relevant business process requirements.	Lot 2 – Multifunctional Devices (MFD’s) and Print Management Software Services
		<p>Lot 2 - Multifunctional Devices (MFD’s) and Print Management Software Services</p> <p>Additionally SCC is a named subcontractor by multiple OEMs for the delivery of Lot 3.</p>	<p>Solutions tailored to meet requirements of Customer’s print strategy. Solutions will range from the basic supply, installation and maintenance of products including Software and/or Enhanced Services which will enable Contracting Authorities to optimise and automate document workflows and relevant business processes.</p> <p>Legacy and/or new solution. Customer specific solutions can continue to be managed and controlled using existing print output Device infrastructure, legacy Product Range and/or new Product Range supplied.</p>
		DIRECT AWARD	SCC Managed Print and Document Services are able to deliver and support solutions across all leading OEMs.
		FURTHER COMPETITION	Organisations can use Lot 2 to satisfy requirements via a direct award process or further competition procedure.

Crown Commercial Service	RM6017 Postal Goods and Service	Pan Government agreement for the provision of postal goods and services to be utilised by central government departments and all other UK public sector bodies, including local authorities, health, police, fire and rescue, education and devolved administrations.	<p>Lot 6 - Business Process Outsourcing, Mailroom, Document and Data Managed Service</p> <ul style="list-style-type: none"> On-site mailroom management Off-site mailroom management Digital mailroom management Virtual Mailroom Post Room <p>Lot 9 - Mail Opening and Digital Scanning Services</p> <ul style="list-style-type: none"> Mail opening services Cherished and Valuable Items services Scanning services Electronic distribution of items within a Buyer organisation Archiving services (physical and digital) Banking Instrument services Hosting Services
		FURTHER COMPETITION	
Crown Commercial Service	RM6094 Spark Dynamic Purchasing System (DPS)	Emerging technology products including Internet of Things (IoT), AI and automation, simulated environments, wearables and new improvements in security.	SCC's role is to understand customer needs and expectations and bring to life these technologies, working closely with customers to understand the context of their organisations. SCC identifies what customers need rather than what they want. To uncover the underlying needs or problems they then look at innovative ways to solve those problems or meet those needs. SCC's Artificial Intelligence proposition is involved in many technologies, such as (and not limited to): Internet of Things (IoT), Machine Learning, Robotic Process Automation (RPA), Blockchain and Chatbots which spans across multiple verticals such as: Urban Digitisation, Healthcare, Retail, Security & Facilities Management. As this digital revolution unfolds, SCC is at the forefront of these technological developments helping organisations to enhance everyday objects through connecting, interacting and exchanging data

Our Cloud Delivered Managed Services Strategy

Our 3-4 year growth plan comprises organic and acquisitive growth, and, the delivery of compelling market-leading end-to-end Cloud Delivered Managed Services propositions that position SCC as a leading Data Centre and Cloud Services Provider.

Sentinel - Secure Public Sector

Key to our Strategic goal and working with the Public Sector is our Sentinel Cloud platform, the first Pan-Government Accredited multi-tenanted public sector cloud, operating to CESG IL2 and IL3 (now OFFICIAL / OFFICIAL SENSITIVE) security standards.

Housed in our Tier 3+ UK Data Centre, Sentinel by SCC is not subject to Off Shoring or Near Shoring Restrictions. We can provide, configure, manage and maintain a new environment or provide cost-effective enhancements for an existing solution and our Network Operations Centre monitor, assess and protect customers' enterprise information systems.

The infrastructure is SCC owned, utilising internal security cleared resources, meaning that as Prime Contractor we are accountable for the contract and not reliant on third parties. We ensure the ability to connect with the Sentinel by SCC platform via the intranet, the GCF, N3 and the PSN Government Networks and the whole is supported by SCC-employed, UK based, SC-cleared cloud engineers available 24 hours, 7 days a week.
